

CLAIMS

What is claimed as being new and desired to be protected by
LETTERS PATENT of the United States is as follows:

1. (Withdrawn) A toy animal comprising:

an interior of a toy stuffed animal, an intermediate layer of artificial hair, and an exterior wax based layer composed of a paraffin wax of 1218 wax, and a hardener of Weissen R-45 mixed about 2 tablespoons hardener to 24 quarts wax, and a scent of about 8 ounces scent to 24 quarts of wax.

2. (Withdrawn) An object comprising an interior, an intermediate layer, and an exterior layer composed of a wax and a hardener within the wax.

3. (Withdrawn) The object as set forth in Claim 2 wherein the intermediate layer is artificial hair.

4. (Withdrawn) The object as set forth in Claim 2 wherein the wax is paraffin.

5. (Withdrawn) The object as set forth in Claim 2 and further including a scent within the wax.

6. (Withdrawn) The object as set forth in Claim 2 wherein the object is a stuffed animal.

7. (Amended) A method of fabricating a toy animal object with a stuffed animal interiorly and a scented wax surface exteriorly comprising the steps of:

melting a hard 1218 paraffin wax having a 140 degree melting point up to between about 150 and 160 degrees;

adding a hardener of Weissen R-45 to the melted wax, about 2 tablespoons of hardener to the amount of solid wax necessary to render about 24 quarts of melted wax, then mixing the wax and hardener;

adding about 8 ounces of scent to the mixed melted wax and hardener and mixing thoroughly to form a scented wax mixture;

dipping a stuffed toy animal into the scented wax mixture;
removing the stuffed toy animal from the scented wax mixture;

picking the hair of the toy animal coated with the melted mixture by hand with a hair pick;

cooling the coated and picked toy animal;

trimming any existing excess wax from the cooled toy animal;

packaging the toy animal in a transparent container; and

adding a label.

8. (Amended) A method of fabricating an object comprising the steps of:

melting a wax;

adding a hardener to the melted wax thereby making a wax mixture;

dipping an ~~interior~~ object into the wax mixture;

removing the object from the wax mixture; and

cooling the coated object.

9. (Original) The method as set forth in Claim 8 and further including adding a scent to the mixed melted wax and hardener.

10. (Original) The method as set forth in Claim 8 wherein the interior object is a stuffed toy animal with artificial hair and further including picking the hair with the wax coating thereover with a hair pick.
